KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feed young to this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action, yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

FIVE GERMAN ARMY CORPS
ON THE HOLLAND FRONTIER.
No Wonder Holland Didn't Join With the United States.

Copenhagen, Feb. 13, via London. \$30 p. m.—Five German army corps concentrated on the Holland frontier furnish a fairly convincing explanation in default of other reasons for the failure of the Dutch government to adopt the policy toward Germany recommended by President Wilson an account of the German submarine campaign.

That German troops were assembling in fairly large numbers in the vicinity of the Holland border had been the subject of gossip in Berlin military circles for several weeks before Dr. von Bethmann-Hollweg's announcement of a new submarine campaign. Their presence there at a time when Germany was talking of peace instead of a policy that would weigh most heavily upon neutral interests was then usually explained as a precautionary measure or even merely char-

acterized as part of a plan for the distribution of strategic reserves for the spring campaign. Such reserves before the enemy's plans and places of attack developed, are usually concentrated at a spot well behind the battle, where there are good railway lines for moving them to a menacing point on the front as soon as the location of the opponent's main effort definitely is established. Accordingly some doubt was raised concerning the latter explanation.

The face of the medal shows a figure representing France, wearing the new Adrian helmet and holding a sword. Above it is the device: "On ne passe pas" (no thoroughfare). On the reverse side are the arms of the city of Verdun with the date of the attack by the Crown Prince's army "February 21, 1916." The medal is to be sold for the benefit of victims of the war in the department of the Meuse.
